A SUMMER IN THE WATER GARDEN WITH DIPTYQUE

At Diptyque, every summer heralds a fresh appointment with creativity. Year upon year, the Maison dreams up a collection conceived as a full-blown exercise in creation, shaped by an ethos that combines the unexpected with reinterpretation and artistic collaboration.

In 2026, this act of exploration takes the form of a water garden – a Jardin des Eaux paved with fresh-cut stones, protected by sheltering pines and interlaced with jasmine plants and blossoming orange trees. Within this setting, crystal-clear waters gush from fountains, their freshness and their dazzling reflections invigorating the senses.

The graphic world of this garden has been placed in the hands of **Mathilde Jonquière**, a contemporary mosaic artist whose work is an exploration of light, materials and the rhythm of surfaces. Jonquière composes vibrant meetings of colour and light with matter, meticulously cutting and arranging enamelled Venetian tesserae made of glass paste and gold.

For Diptyque, this visual language has been a source of graphic inspiration. The decoration on the bottles and boxes not only produces the materials used for her mosaics; rather, it offers an artistic interpretation. An interplay of reflections, fragments and colours, evoking the surface of the water and the mineral freshness of this garden.

A SUMMER FRAGRANCE: EAU DES SENS

Eau des Sens Eau de Toilette is the centrepiece of the Summer 2026 collection, bursting forth in a lively, luminous cascade.

Ingrédients: juniper berry for sparkling freshness, angelica with its subtle, aromatic accents and patchouli, adding a woody, and elegant depth.

The Eau de Sens line has been extended to include a limited-edition **Hair Mist**, subtly infused with the lively, zesty notes of summer. The illustration on the bottle reflects the mosaics created by Mathilde Jonquière.

A SENSORIAL ROUTINE THAT COMBINES FRESHNESS AND LIGHT

Created to accompany every fragrance gesture of the summer, this collection celebrates the freshness of the plant world and delicacy of texture, offering an invigorating, softening veil for the skin.

Citronnelle & Géranium After-Sun Body Milky-Gel:

A new gesture that soothes and refreshes the skin. The bottle features a mosaic-style design inspired by enamelled tesserae – an artistic interpretation of the scent and an extension of our Water Garden.

Citronnelle & Géranium Summer Body Spray:

In this blend of essential oils of lemongrass, geranium and lemon eucalyptus, lively notes are combined with orange blossom. The visual design for the bottle and its box is truly exquisite: here, amid countless reflections, geraniums weave their way through Mathilde Jonquière's luminous mosaics in a poetic echo of the Water Garden.

Citronnelle & Géranium Perfumed Cleansing Body Gel:

A creamy, delightful foam develops on contact with water, gliding across the skin almost like a final, delicate touch of sunlight.

And lastly, **Summer Essentials**. This invitation to savour the art of summertime living takes the form of a brightly coloured organiser containing ten key staples for personal and household use, in travelling or classic sizes. A holistic experience to help you prepare for your holidays – or make them last that little bit longer.

DIPTYQUE – THE HOUSE OF SUMMER

The new **Pinède (Pine Grove)** Candle introduces Diptyque's latest star fragrance: a dry, resinous scent that evokes the sheltering warmth of undergrowth stirred by a gentle breeze. The illustration by Mathilde Jonquière matches the porcelain **Pyramid Lid**, with its green enamel decoration, and the **Matchbox**, which also offers visual echoes of the candle.

At twilight, the **Incense Spirals** diffuse their fragrant swirls. Inspired by a universal summer gesture, the Spiral is ideal for outdoor use. Traditionally, it has been associated with functionality; now, with its scent revised, it takes its place in the Diptyque universe. This new diffusion system is accompanied by a unique **Summer Incense Holder** that reinterprets the traditional archetype as a sophisticated decorative object made of dark enamelled porcelain.

The **Golden Carousel** returns for 2026, reinvented in a brand-new design featuring gilded pendants shaped like geraniums. The heat of the flame brings them to life, enhancing the beauty of the Very Large Candles and illuminating summer evenings.

The decorative objects are celebrating summer too – a beautiful extension of this scented art of living and a tribute to the skill of the artisan.

Medicis Vases – The small Medicis Vase, a true summer icon in wax, now comes in fresh colours: Water Garden Blue with its impressive aquatic hues and Pine Grove Green, a shade exclusive to the line. These vases are hand-made in Portugal in a gesture that celebrates craftsmanship while finding an innovative new use for wax, a material emblematic of Diptyque.

Pyramid Candle Holder – Inspired by the refined architecture of the Water Garden, the Pyramid Candle Holder amplifies the light of the candles in shimmering shades of blues and greens. Every piece is unique, hand-blown in Italy by master glass makers.

Exclusive items available only in Maison Diptyque Paris and Maison Diptyque London. The **Bird Bath**, crafted in tinted enameled ceramic, creates a tranquil ambiance in any garden. The **Chantepleure (Watering Can)** is a modern reinterpretation of a medieval watering can and is fashioned in enameled ceramic. Each is hand-made by a ceramicist, applying enamelling and cooking techniques with meticulous precision to create subtle variations that make every piece unique. The water emerges in a fine, delicate stream.

The Summer 2026 collection continues Diptyque's exploration of the senses, creating a scene that brings together cool, fresh water, gentle light and bountiful nature. A welcoming Water Garden to visit this summer – or to carry with you, wherever you go.
