## EXPLORE DIPTYQUE SUMMER FRUIT GARDEN

Diptyque invites you to discover its Summer Fruit Garden – a rural idyll that brings together perfumes, care products and scented objects to enhance the art of summertime living. A collection that transforms nature into a multi-sensory experience. In these unique creations, delicate flowers, radiant citrus fruits and aromatic herbs unfold, fusing freshness with poetry.

**AN IMAGINARY GARDEN BROUGHT TO LIFE  
BY MARIE-VICTOIRE DE BASCHER**

The garden is a space of refuge and of inspiration that holds a very special place in the Diptyque universe. From its inception, the Maison has been drawing on landscape and botanical art for its creations. This year the joyful, vibrant strokes of Marie-Victoire de Bascher breathe life into a teeming fruit garden shimmering with colours and vitality. Expressive and organic, the lines of her illustrations decorate the creations in this collection, capturing the luminous, sparkling energy of summer.

## THE PERFUMED IMPRINT OF THE DIPTYQUE FRUIT GARDEN

L'Eau des Hespérides Eau de Toilette, the centrepiece of the collection, celebrates the radiant freshness of citrus fruits – even its decoration reflects this. An invigorating composition enriched with spicy, vibrant notes, and the ideal accompaniment to those never-ending days drenched in sunlight.

Ilio and Philosykos Hair Mists envelop the hair in a delicately perfumed veil – the perfect companion for long summer days.

The Summer Essentials gift set echoes the celebration, inviting the user to enjoy a complete olfactory experience. Ten emblematic creations for body and home in generous yet nomadic formats, presented in a lively, reusable case and offering a great opportunity to prolong or anticipate the delights of summertime.

## NEW BEAUTY GESTURES

A selection of new care products created to enhance your summer rituals, combining sensoriality and olfactory pleasure. The Lip Oil, developed in collaboration with Susanne Kaufmann, combines nourishing plant oils with a fresh, minty scent tinged with lemon. This limited edition care product instantly moisturises and refreshes lips while leaving them soft and smooth.

Other unique gestures in the collection include a Shampoo with radiant notes of bergamot, green tangerine and honey of neroli, which enhances the hair and leaves behind a delicate sillage, and a Cleansing Hand and Body Gel that energises the skin with lively, fragrant accords created by the vivacity of lemongrass and geranium, encouraging us to extend the perfumed ritual. The Citronnelle & Géranium (Lemongrass & Geranium) Summer Body Spray offers the same freshness while combining utility with pleasure, blending essential oils of lemongrass, geranium and lemon eucalyptus – all noted for their mosquito-repellent properties – with floral notes of neroli and orange blossom. The resulting scent is light, yet invigorating.

The perfect conclusion to these rituals is the Vinaigre de Toilette, inspired by age-old traditions and suitable for a wide range of uses. A capful in the bath softens the water, a few drops after a shower or shave refreshes and tones the skin, and a glassful infused in boiling water delicately freshens and perfumes the air. The true art of summertime living, Diptyque-style, and an elegant way to refresh and fragrance.

## **EVENINGS INFUSED WITH LEMONGRASS**

After dark, the Citronnelle (Lemongrass) Candle, available in Classic and Extra Large sizes, is the ideal companion for evenings outdoors. Lemongrass, given an extra twist or two by verbena and neroli, diffuses an airy, soothing fragrance while gently discouraging any uninvited visitors.

The Carousel for Extra Large candle is a unique accessory, its golden, sun-shaped tassels twirling in the heat from the candle flame. Once set in motion, it creates subtle lighting effects that enhance the ambiance of any summer evening.

## THE ART OF DECORATION SHIMMERS IN THE SHADE OF THE FIG TREE

As a complement to this ode to nature, Diptyque is offering a range of decorative objects that celebrate the sunshine and freshness of summer. Decorated in a deep green inspired by the leaves of the fig tree, the Ribbed Candle Holder creates a warm light with green-tinged reflections, adding lustre to any summer table. The wax Medicis Vase is available in several sizes, and is an ideal receptacle for summery bouquets of all kinds. The small version comes in fig tree green; its larger cousin is available in three summer shades – fig tree green, citrus yellow and peacock blue – and is exclusive to the Maisons Diptyque in Paris and London. There is also an orange variant, available exclusively via e-commerce and only in the large format. These limited edition items embody the Maison's expertise. They enhance any space, conjuring up the serenity of summer gardens.

This collection sees Diptyque transforming summer into an art of living, with each creation an ode to abundance and simplicity. Taking in decorative objects and vibrant fragrances, the Maison invites us to savour summertime in a sophisticated setting in which nature and the imagination rub shoulders. The Summer Fruit Garden promises moments of suspension filled with light and poetry.
