DIPTYQUE'S SUMMER COLLECTION:
YOUR UNMISSABLE DATE WITH THE MEDITERRANEAN

The countdown to summer has begun!

In the grand tradition of summer rendezvous, Diptyque unveils the essence of a Mediterranean summer in an exclusive collection, packed with new items and essentials in limited editions. A sun-drenched interlude: salty ocean spray mingling with scents from flowery landscapes in full bloom. Sunshine tracing leafy shadows onto whitewashed walls. Light abounds in this welcome stopover, inviting you to savor every delicate nuance of the summer and ease yourself into a time with a different rhythm.

This summer, Diptyque celebrates its creative vision in a collaboration with French artist Alexandre Benjamin Navet, whose radiant hues bring the collection to life while creating a contemporary, graphic poetry of the Mediterranean coast. His pastel designs are meticulously executed, and the entire range comes decked out in these vibrant shades: a dialogue of art, materials, and imagination, capturing the laid-back way of life that informs the collection and its color palette.

To celebrate the fleeting magic of the moment, Diptyque is launching its first-ever summer valise—an invaluable accessory for travels in the sun. The contents make up a gift set, offering the ultimate ten-day experience to anticipate or extend your holiday: ten surprises selected from our summer favorites, nestled snugly in the compartments. A new aesthetic palette composed of personal fragrances, home fragrances, and summer care products, all in travel-friendly formats. The perfect way to rediscover Diptyque's art of living, wherever you may be.

At the heart of this range is a chance to rediscover the Ilio fragrance, an enthralling summer-time vision that celebrates the natural environment of the Mediterranean through an unconventional fruit: the prickly pear. Ilio unfolds to reveal a floral, fruity bouquet, shaded with subtle notes of iris and jasmine, and is showcased here as an eau de toilette and a hair mist. Ilio is also presented for the first time as a refreshing face and body mist—an invitation to explore a new gesture, alcohol-free, and just right for slipping into your bag.

The collection is rounded off with a true essential: the body spray, which brings together delicate geranium notes with a spicy hint of lemongrass. An indispensable companion, ideal for keeping mosquitoes at bay through those summer nights.

The range's crowning touch is the Citronnelle (Lemongrass) candles, available here in two formats: the classic and the giant-sized, extra large version with five wicks working in harmony. Also on offer is a set of three small candles; here we find Citronnelle (Lemongrass) in the company of Cyprès (Cypress) and Figuier (Fig Tree), creating a perfect summer trio that captures the very essence of the Mediterranean.

Combining lightness of touch with flamboyance, the 2024 summer collection is an evocative ode to the pleasures of this loveliest of seasons. Time in suspension, feet planted in warm sand under an azure sky. Now the Maison beckons us to experience time in a new way, offering a new art of living—modern and joyous—inspired by the lifestyle and landscapes of the Mediterranean coastline. Across the whole range, Diptyque makes the most of each subtle composition, joyfully infusing Mediterranean fragrances with the poetry of moments shared.
